

MY COSMIC ADDRESS

**By members of the Reception Class at Gatehouse School
working with David Haines**

**Dawlish is my own home town
Sharpen pencil, write it down
Teignbridge is my local district
Write it clear and write it quick
Teignbridge in Devon county lies
Follow my pencil with my eyes
England is my own home land
Write it with my careful hand
Part of Britain and the British Isles
Send my letter, it will travel for miles**

**The continent of Europe just in case ya
Wand'ring's part of Eurasia
That grand land mass is right here
Part of the Northern hemisphere
That comprises half earth's globe
Earth is a planet, but that you know
One of nine in the solar system
I know them all but I'm not going to list 'em
Solar System's just a part of the Milky Way
A crowd of stars one hundred thousand million strong
One hundred thousand light years long.**
